Background

For a long time, the idea of a united Europe was just a bold dream of visionaries. A dream that is taking shape more and more over the last few years.

The merger of European countries has ensured a peaceful and progressive cooperation and proves that a united Europe is greater than the sum of its parts.

But on this bright idea spreads a dark shadow: The anti-European and prejudiced populism that defames the idea of Europe.

We want to keep the European dream alive. Very practical with political concepts such as "area of freedom, security and justice" or answers to questions, e.g. how we can strengthen European identity while respecting cultural diversity. But the prerequisite for any good answer is that we open our hearts and develop visions!

And here you are asked: With the help of your answers, an art project is being created that will help to keep alive the European dream and to ensure that it can continue to be realized:

EUROPEAN VISIONS - Humans behind Europe
